SENATOR HARDING SOUNDS KEYNOTE

Address to G. O. P. Convention by Temporary Chairman.

EARNEST PLEA FOR HARMONY

National Defense, Protective Tariff, Square Deal for Business and Straight Americanism Sot Forth as Country's Needs.

Chicago, June 7 .- Senator Warren G. Harding of Ohio as temporary chairman of the Republican national convention today sounded the keynote of the party's campaign. His address was n part as follows:

Gentlemen of the Convention: It is good to greet this representative body of that American Republicanism on which are centered the high hopes of the republic. I can believenay, i know-that a vast majority of the people of our United States is expecting the party sponsors here assembled to write anew the sacred covenant of Republicanism, and reconsecrate the party to the nation's service same majority expects you to select a standard-bearer who shall not only typify our expression of faith, but time and anywhere: These are Amershall so enlist the confidence and trust | ican rights and must be respected. of our American citizenship that the work of this convention will be confirmed overwhelmingly at the ballot-

box next November The country, wearied afresh by a disappointing and distressing Democratic administration, is calling for Republican relief, and there is every inspiration, every encouragement, evgry confidence that the light of Repubtican conscience, set aflame in this convention, will fllumine the way to tha country's restoration.

We did not do very well in making for harmony the last time we met. The country has regretted, let us forget-and make amends to our country. We did not divide over fundamental principles, we did not disagree over a national policy. We split over methods of party procedure and preferred personalities. Let us forget the differences, and find new inspiration and new compensation in an united endeavor to restore the country.

The essential principles of Repubticanism are unchanged and unchanging: the lofty intent, the indestructi ble soul and the undying spirit of Republicanism are as dominant today as in the destined beginning 60 years ago, or at any time during the intervening years, and they are emphasized today by the proof recorded to Republican credit in the matchless chapters of American progress. The World at War.

Much of the discussion of the hour is hinged upon a world at war. We need not wonder thereat, because the enormity of the conflict and the influkind in upheaval. The traditions of sake and put all territorial aggrandizecivilization have been broken and in- ment ande, with that belief in the ternational laws have been 'mored. square deal, individual, national and limaster, there are violent emotions of American faith, we mean to go on. and magnified fears. There are the an exemplar of peace to all the naextremes of incalculable sacrifices and measureless new fortunes-not all American. There are new wonders and new hindrances in commerce, changed balances of trade, new marvels in finance and utterly changed economic conditions. These have attended embarrassments in our foreign relations as difficult as those which the individual citizen experiences whose every neighbor is in volved in deadly quarrel. Everything is abnormal except the depleted condition of the federal treasury, which is characteristic of Democratic control, and the facility of the administration in writing varied notes without effective notice.

Amid these conditions has stood this unarmed giant, typifying the American republic, neutral and sane. to whom the neutral nations have turned for leadership. Our national unselfishness had been proven, our devotion to humanity had been established, our committal to international justice had long been proclaimed. The world had previously heard the voice of American fearlessness, and all the conditions single us out for leadership among the neutral powers, but the administration at Washington spoke with more rhetoric than resolution, and we came to realine what the warring powers soon came to know, that the official American voice lacked the volume of determined expression that once demanded international heed, and we lacked the strength of confidence in our own defenses.

For National Defense. Perhaps it is a reminder more than a discovery, but there has come to, us a conviction that this great nation. rich in resources and strong in patriotic manhood, has been negligent concerning its own defense. We have dwelt in fancied rather than real security. Pride mingles with regret in this, because it suggests the mind of a nation so free from intended ofthere is a warning in bleeding Europe, and there is a call today for prudent, patriotic and ample national defense. There is no mistaking the sentiment. We are not thinking of the hysterical, we need not be moved by Our Republican achievement is the lasting.

a preparedness which is partisan in conception. We need not believe in a defense propaganda inspired by those who aim to wax fat in the production of arms and munitions, because there is none. I deplore the teaching that an anxiety about our naional defense is inspired by greed. We rejoice in free speech and free press and untrammeled opinion, but patriotism is illy promoted by the imputation of false motives, whether aimed at those who believe in defense or those who doubt its wisdom. Such a teaching rends the concord of citisenship, which may develop a worse peril from within than from any en-

At the same time we have more to do than to chart a national course through the waters surging with the turbulence of war; our inspiring course is on the highway of peace. Our armed defense must ever be linked with our industrial self-reliance, and the nation worth dying for must first be worth living for. Out of nature's prodigality we have incalculable resources and limitless possibilities, and there is need only for the unhindered application of man's genius and industry to make us as independent industrially as we are free politically. Ample defense rests on industrial freedom and self-reliance as well as patriotic sacrifice, and industrial preparedness gives that assurance of material good fortune in peace on which must be founded all

our higher aspirations. The Protective Policy. Subsistence is the first requisite of existence, and we have the higher American standard of living because of the Republican protective policy which makes of Americans the bestpaid workmen in all the world. Out of the abundance of employment and higher compensation, together with the beckening opportunity which of hearts there is sympathy or partiality fers every reward, we Americans have | for the land of their nativity when it attracted the laborers of the earth, is involved in a life-and-death struggle and set new standards here.

It is not for me to put the stamp of relative importance on pending issues-the intelligent voters will determine that for themselves. But I can, he must have human sympathies they believe that the protective policy | the foreign-born and the sons of forwhich made us industrially and com- eign-born whose very souls are not mercially eminent is necessary to mercially eminent is necessary to wrung by the catactysmal sorrow of preserve that eminence.
